

GPS LightLock

Astronomical Timers

US Patent 8,816,842

Zero Programming Zero Maintenance
15 Year Warranty

Anyone can sell a customer an energy saving light fixture at a fair price, but only you can sell that customer a lighting system that is maintenance free for the life of the fixture when you specify GPS LightLock.

GPS LightLock with onboard GPS is the world's only true plug & play, dusk-to-dawn astronomical timer. It never requires any programming, maintenance or even batteries. It self-recovers from power outages, there are no time zones or daylight savings time to worry about, and it comes with a 15 year performance warranty.

Servicing lighting systems is a considerable annual expenditure for every organization. Programmable timers require servicing every 6 months to 2 years. Photocells don't even last that long. With GPS LightLock those servicing costs are eliminated for the life of the fixtures.

Provide your customer a better experience than the competition by specifying GPS LightLock.

Twist-Lock Astronomical Timer 120-277VAC

Model # GPS-MV-T

Installs in under a minute! Switches lights dusk-to-dawn anywhere in the world. Plug & play, never needs programming, maintenance or even batteries. Self-recovers from power outages. Direct replacement for twist-lock photocells. Rated 120-277VAC, 1800VA, Listed UL916. 15 Year Warranty. Made in USA.

Wire-In Astronomical Timer 120-277VAC

Model # GPS-MV-W

Our most popular model. Includes twist-lock astronomical timer plus wire-in twist-lock socket with industry standard 1/2" NPT female thread. Direct replacement for all wire-in photocells and programmable timers. Rated 120-277VAC, 1800VA, Listed UL916. 15 Year Warranty. Made in USA.

Weatherproof Surface Mount Box Kit w/ Bypass On

Model # WPSM-BP-KIT

The most popular way electricians use our controls on contactor cabinets. Makes periodic testing of the lights as easy as flipping a switch! Surface mount for easy installation on any wall or pedestal. Rated 120-277VAC, 1800VA. Listed UL916. 15 Year Warranty. Made in USA.

Controlled Receptacles

Model # CPCR-1R (shown)

Landscape Lighting Timer / Holiday Light Timer. Ready to use, plug & play. Has 2 outlets. Surface mount for easy installation on any wall or pedestal. Rated 120VAC, 15A, 1800W. Listed UL916. 15 Year Warranty. Made in USA. Also available with GFCI, Bypass On or Off, Double Gang configuration, etc.
